PLANNED GRAZING: HOW TO GROW SOIL, GRASSLAND HEALTH & PROFIT

A Three-Day Workshop for Ranchers & Land Managers
Friday - Sunday, March 6 - 8, 2020 – 9:00 am to 5:00 pm
California Valley, CA (south of HWY 58)

Land is your life support system—sound planning means everything. Build drought & fire resilience, biodiversity & SOIL CARBON. Increase rainfall effectiveness!!!

Learn how to develop and implement a successful grazing plan. This powerful step-by-step grazing planning process developed by [ALLAN SAVORY](#) is good for your grass, livestock, wildlife, soil, monitoring, and especially your wallet.

- Learn why Carrizo Ranch changed their grazing management.
- Learn from people who use this grazing planning process to build soil, grassland health, animal performance & profit.
- Learn how to accelerate improvements in annual grassland, native perennial grassland, oak woodland, irrigated pasture, wetlands and riparian habitats using livestock.
- Learn how to stop over-grazing plants, over-resting land, and the power of high animal impact to more quickly improve the land.
- **Learn by doing** a grazing plan for the Carrizo Ranch. Bring your rain gear!!!

Instructors: *Michael Dennis*, DVM, Carrizo Ranch owner/operator. *Richard King*, 29 yrs. of experience practicing holistic planned grazing on his own ranch and helping others learn.
